

Appl. No. 09/694,927
Amtd. Dated 12 November, 2003
Reply to Office Action of Sept. 12, 2003

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A frozen food product, comprising; at least one unleavened baked wafer, wherein the baked wafer is molded into a desired shape prior to baking exhibiting high resistance to moisture while retaining crispiness having opposed major surfaces, a thickness, and a moisture content of about 2% to no greater than about 5%, fabricated from a dough or batter composition, comprising: flour, water and a sweetener, wherein the sweetener comprises consists of sucrose, and at least 40% of a member of the group consisting of at least one a high molecular weight starch hydrolysate having a DE of 1 to 20 or a crystalline hydrate former, wherein the crystalline hydrate former is selected from the group consisting of maltose, trehalose, isomalt, and raffinose, and mixtures thereof; having a modulus of at least 200 g/mm² at a moisture content of 9%; and a frozen dessert composition in contact with at least one major wafer surface.

Claim 2 (currently amended): The frozen food product of claim 1, wherein the The baked wafer has of claim 1, having a modulus of at least 300 g/mm² at a moisture content of 9%.

Claim 3 (currently amended): The frozen food product of claim 1, wherein the The baked wafer of claim 1, wherein the sweetener of the baked wafer comprises at least one

of the high molecular weight starch hydrolysate and the crystalline hydrate formcr, and
sucrose.

Claims 4-6 (canceled)

Claim 7 (currently amended): The frozen food product The baked wafer of claim 1,
wherein the high molecular weight starch hydrolysate of the baked wafer is corn syrup
solids having a DE of 1 to 20.

Claim 8 (canceled)

Claim 9 (currently amended): The frozen food product of claim 1, wherein the The
baked wafer of claim 1, having has a modulus of at least 350 g/mm² at a moisture content
of 10%.

Claims 10-24 (canceled)

Claim 25 (currently amended): The frozen food productdessert composition of claim 1,
wherein the frozen dessert composition is selected from the group consisting of ice
cream, ice milk, gelato, frozen yogurt, sorbet, frozen custard, and sherbet.

Claim 26 (currently amended): The frozen food product of claim 1, wherein the The
baked wafer of claim 1, wherein the wafer is in the form of a cone.

Claim 27 (canceled)

Claim 28 (currently amended): The frozen food product of claim 1, wherein the The
baked wafer of claim 1, wherein the wafer is in the form of a flat wafer.

Claim 29 (currently amended): The flat wafer of claim 28, wherein the wafer is in the
form of a disk a cookie.

Claim 30 (currently amended): The frozen food product of claim 1, wherein the ~~The~~
baked wafer of claim 1, wherein the wafer is curved in the form of a molded cup.

Claim 31 (currently amended): The frozen food product of claim 1, wherein the ~~The~~
baked wafer of claim 1, wherein the wafer is in the form of a cylinder forming a shell.

Claim 32 (currently amended): The frozen dessert composition food product of claim 25,
wherein the baked good is mixed throughout the frozen dessert composition.

Claim 33 (new): The frozen food product of claim 1, wherein the baked wafer
additionally comprises lecithin, salt, and shortening.
